

Fruity Fun & Wild Wins: The Symbols of Hot Hot Fruit

Symbols in [Hot Hot Fruit game](#) include classic elements typical of fruit slots and some unique symbols adding a twist to the game:

Fruit Symbols: Just like in many classic slots, “Hot Hot Fruit” features fruit symbols like watermelons, plums, and oranges. These symbols are the basics and bring wins with the right combos.

Lucky 7s and BAR Symbols: These traditional slot symbols are also in “Hot Hot Fruit”. The Lucky 7s and BAR symbols are usually high-paying and can lead to hefty wins.

Wild Symbols: The game has two types of wilds – the regular wild symbol and the red double wild symbol. Both can substitute for other symbols to create winning combos. However, the red double wild has the extra perk of doubling up.

Hot Hot Feature: This special feature randomly activates during play and can turn regular symbols into doubles, except for the Lucky 7s, which can turn into triples. This ups the symbol count on the reels and boosts your chances of winning.

Free Spins: Triggered by landing three or more wild symbols on the reels. This leads to free spins, increasing the player’s chances of winning without extra bets.

"Hot Hot" Feature

The special "Hot Hot" feature in the Hot Hot Fruit is a key element that makes the game particularly interesting and dynamic. This feature is triggered randomly during play and can significantly increase your wins. Here's how it works:

- **Feature Activation:** The "Hot Hot" feature can randomly activate at any time during play. This means it can start during any spin, regardless of the bet or symbols on the screen.
- **Symbol Transformation:** When the feature activates, it selects a random number of symbols on the screen and transforms them. Regular symbols can turn into double symbols, meaning they count as

two symbols instead of one. In the case of the “7” symbol, it can turn into a triple symbol, tripling its value.

- **Win Increase:** Thanks to this feature, it’s possible to get combinations of up to 10 symbols on a single payline, significantly increasing the potential win size.
- **Free Spins:** If three or more wild symbols appear on the screen from left to right or right to left, the free spins feature is activated with 6 free spins. If you find 3 or more wild symbols on both sides, you win 12 free spins. During this feature, all winning symbols are automatically locked in for the remaining free spins, which can increase your win.

This feature makes playing Hot Hot Fruit unpredictable and exciting, as it can activate at any moment and significantly boost your chances of a big win.
